

Australian Standards Weather Station

10m Mast

- Pneumatic (Pump Up) with Tripod stand or Wall Mounting bracket
- Pivotal Mast (concrete slab req.)
- Optional lightning protection kit at 10m

MMP Logger

- DataLogger - built in Australia for local conditions
- Modem
- Remote Software
- Communication options
- SMS Alerts available

Lufft WS200

Compact all-in-one weather sensor, low power, maintenance-free operation, open communication protocol.

- Wind Speed
- Wind Direction
- Sigma Theta

Lufft WS500

- Temperature
- Humidity
- Air pressure
- Wind direction
- Wind speed

Tipping Bucket

- Precipitation
- Sealed reed switch produces a contact closure for each 0.25 mm of rainfall. 8" orifice. powdercoated & anodized aluminum. funnel screen prevents debris from entering the gauge.

Lufft WS600

- Temperature
- Relative humidity
- Precipitation intensity & type
- Precipitation quantity
- Air pressure
- Wind direction
- Wind speed

Lufft WS301

Aspirated radiation shield

- Temperature
- Pressure
- Humidity
- Radiation

Power options

- Solar Power
- Battery Power
- Mains Power
